

Pyronyl™

Crop Spray

A highly concentrated pyrethrin insecticide. It features a high ratio of active ingredients to synergist for the flushing and rapid knock-down of multiple stored product insects. Use it alone or tank-mixed with Diacon® IGR and Centynal™ Insecticide as an effective tool for applications in and around stored grain facilities.

Pyronyl™
Crop Spray

BENEFITS

- For control of insect infestations in grain and seed storage sites, warehouse bins, mills, elevators, farms, and transportation vehicles (trucks, planes, cargo ships).
- Ideal for large volume ULV and liquid applications

KEY FEATURES

- Helps eliminate stored product insects
- Treats adult stages of insects
- Can be diluted with water
- Ideal tank-mix partner
- Non-corrosive formulation
- Can be tank-mixed with Diacon® IGR and Centynal™ Insecticide
- Pyrethrins act as a sodium channel blocker and PBO as cytochrome enzyme inhibitor
- For use as a grain and seed protectant
- For use on almonds, peanuts and walnuts in bulk or in bags
- For use in storage sites

VITAL FACTS

ACTIVE INGREDIENTS

Pyrethrins (6%)

Piperonyl Butoxide (PBO), Technical (60%)

MODE OF ACTION

Pyrethrins: sodium channel blocker

PBO: cytochrome enzyme inhibitor

SIZES

Available in 1 quart, 1 gallon, 30 gallon and 55 gallon

APPLICATION SITES

Stored grain application sites

DILUTION RATES

See label for dilution rates based on application
