## Stored Grain Insect Protection Goes Beyond Stored Products

Treating post-harvest grains for insect infestations is only one element of stored grain insect protection; sanitation and treatment of empty bins are just as important. Diacon® IGR PLUS is a start-to-finish insect control solution that can be applied directly on grain streams AND as a pre-bin treatment. Learn more about how using Diacon® IGR PLUS as a spray or fogger for pretreating empty bins can help prevent costly insect damage.

**AVAILABLE IN 1 QUART  
AND 2.5 GALLON CONTAINERS  
TO MEET YOUR PRE-BIN AND GRAIN  
PROTECTANT APPLICATION NEEDS.**

## CONTROL STORED PRODUCT INSECTS FROM START TO FINISH with Diacon® IGR PLUS

Get insect control that can be applied directly to stored grains and used for sanitation in empty bins and warehouses. Featuring both an adulticide and an insect growth regulator (IGR), Diacon® IGR PLUS kills adult insects and prevents future generations from emerging. Make Diacon® IGR PLUS a key part of your insect control program.

### Key Diacon® IGR PLUS Features

- One product for use on grain as well as pre-bin treatments
- Helps eliminate stored product insects
- For use on wheat, corn, rice, other listed grains and seeds
- Active ingredients control both adult and larval stages of insects
- May be diluted with water or oil
- Miscible in dust controlling oils
- May be tank mixed with other products, such as PBO-8® Synergist
- Long-residual control
- Reduces rebound of infestations
- CODEX approved for cereal grains

### Active Ingredients

- IGR - (S)-Methoprene
- Insecticide - Deltamethrin
